

Ionomr Innovations' Ben Britton earns an inaugural Report on Business Changemakers award from The Globe and Mail

Vancouver, B.C. / February 26, 2021 -- Ionomr Innovations is pleased to announce that Ben Britton, the company's Co-founder and Chief Strategy Officer, has earned a 2021 Report on Business Changemakers award.

[Changemakers](#) is a new editorial award program produced by The Globe and Mail's Report on Business magazine. Its intent is to showcase the emerging leaders transforming business today. Ben Britton is one of 50 inaugural winners of the award.

"I am honoured to accept this award on behalf of the entire company," said Britton. "At Ionomr, our vision is to shift the world's energy economies to sustainable, low-cost solutions. We are doing this by developing ion-exchange membranes and polymers -- the fundamental building blocks of clean energy technology -- that enable the optimization of product performance, increase durability, eliminate toxic components, increase recyclability, and decrease costs."

"We are extremely proud of Ben and are encouraged that his work is being recognized. Ionomr's breakthrough Ion Exchange materials are advancing the development and performance of electrochemical systems for the production and use of Green Hydrogen that will lead us to a carbon neutral future," said Bill Haberlin, the company's Chief Executive Officer.

Report on Business solicited nominations for the Changemakers award in late 2020. Winners were selected by The Globe and Mail's award-winning editorial team based their ideas, accomplishments and impact, as determined by their nominations, subsequent interviews and reference checks.

"As the Canadian economy recovers from the pandemic, many people are seeking ways to make business more sustainable, inclusive, innovative and fair," says James Cowan, editor of Report on Business magazine. "The 50 Changemakers on our inaugural list serve as inspiration and instruction for any business leader seeking to effect meaningful change."

Editorial coverage of all 2021 Changemakers can be found in the March 2021 issue of Report on Business magazine, distributed with The Globe and Mail on Saturday, February 27th, and online now at tgam.ca/Changemakers.

About The Globe and Mail

The Globe and Mail is Canada's foremost news media company, leading the national discussion and causing policy change through brave and independent journalism since 1844. With our award-winning coverage of business, politics and national affairs, The Globe and Mail newspaper reaches 5.9 million readers every week in our print or digital formats, and Report on Business magazine reaches 2.1 million readers in print and digital every issue. Our investment in innovative data science means that as the world continues to change, so does The Globe. The Globe and Mail is owned by Woodbridge, the investment arm of the Thomson family.

About Ionmr Innovations

Ionmr is advancing the development and manufacturing of ion-exchange membranes and polymers for energy storage and clean energy generation. Ionmr's Pemion™ and Aemion™ technologies provide cost, performance and sustainability advantages for fuel cells, hydrogen production, energy storage, advanced batteries, and carbon capture processes. Founded by Simon Fraser University PhD chemistry student Dr. Benjamin Britton in 2016, Ionmr employs 25 clean technology professionals at its research and manufacturing facilities in Vancouver, Canada. The company is poised for significant growth. For more information about how Ionmr is helping to advance the clean energy economy and create a new clean membrane industry, visit www.ionmr.com.
